

EXPERIENCE

SENIOR WEB DEVELOPER

Agency Revolution (Bend, OR)

Jul 2017 – Present

I devoted my time as a designer / developer to research and produce the roadmap, processes, themes and systems for the Digital Insurance Office product.

- Developing and designing a website builder tailored to insurance agents
- Augment product's front-end functionality using React/SASS/Jest/Puppeteer
- Designed/developed component framework for a theme editor
- Conduct process analysis and optimization of customer user flow
- Provide product support, documentation and training to clients and internal employees

SENIOR WEB DESIGNER

Agency Revolution (Bend, OR)

Sep 2012 – Jul 2017

WEB DESIGNER

Agency Revolution (Bend, OR)

May 2010 – Sep 2012

LEAD DESIGNER

OMAC Advertising (Salem, OR)

Jan 2009 – May 2010

Lead production designer for a diverse customer base offering web and print media solutions.

- Design/developed websites utilizing HTML/CSS/JS/PHP
- Customized CMS themes and modifications to client spec
- Developed internal processes and trained employees
- Brand development and strategic consulting

AAS, DIGITAL IMAGING

Linn-Benton Community College
2005

ABOUT

Detail oriented designer / developer that loves to be involved in projects from ideation, to wireframes / prototypes and then on to front-end code and database models. My strong desire to learn and communicate effectively has given me tools to glue departments together.

I'm currently looking for opportunities to expand my skill set as a full-stack developer.
