

● EXPERIENCE

○ SENIOR WEB DEVELOPER

Agency Revolution
May 2010 – Present

Working as a lead developer to design and produce the roadmap, processes, themes and systems for our Digital Insurance Office product, used by hundreds of independent insurance agents.

- Developing and designing a Wordpress based website builder
- Aligning client and business objectives to create a cohesive product
- Leading user testing of designs to build and perfect our offered themes
- Conduct process analysis and optimization of customer user flow
- Provide product support, documentation and training to clients and internal employees

○ LEAD DESIGNER

OMAC Advertising
February 2008 – May 2010

Lead production designer for a diverse customer base offering web and print media solutions.

- Produced websites utilizing HTML/CSS/JS/PHP
- Customized CMS themes and modifications to client spec
- Developed internal processes and trained employees
- Coordinated with 3rd party vendors
- Brand development and strategic consulting
